

Stand-Alone Apps

These are basic programs which do not require SCENE to work. Here you will find various software apps from FARO as well as 3rd party vendors which are all capable in handling FARO Laser Scanner data.

SCENE LT 5.4

SCENE LT is a free viewer that enables the professional user to view existing FARO scans and workspaces. It is able to import CAD models in VRML format in order to compare them with the scan points.

Features

- Support for the new Freestyle3D scanner
- Adaptive point size
- Export scan project into ReCap format
- Free of cost! - Software to be shared with customers and partners
